## In Recognition of Significant Achievement and Dedicated Service to the Students of Sacramento State and to the Greater Sacramento Region

The leadership that exemplifies the Aquatic Center is the culmination of committed visionaries from Federal, State and local jurisdictions. The center began in the 1970s, when resources were identified and then were allocated to allow the Aquatic Center management to implement programs that are mutually beneficial, while providing a tremendous service to its patrons. It is the coordination of these leaders' expertise and knowledge that has made Sacramento State Aquatic Center an award-winning facility with award-winning programs.
